

Pantawid Pamilyang  
Pilipino Program

## MEMORANDUM

**FOR :** **GEMMA B. GABUYA** *g 8/18/21*  
The Director IV and National Program Manager  
Pantawid Pamilyang Pilipino Program

**RECOMMENDING APPROVAL :** **ROSALIE D. DAGULO** *md 8/11/21*  
OIC Deputy Program Manager for Operations

**FROM :** **THE DIVISION CHIEF**  
Modified Conditional Cash Transfer Division

**SUBJECT :** **Request for Approval to the Guidance Note on Identifying Geographically Isolated and Disadvantaged Areas (GIDA) In Pantawid Pamilyang Pilipino Program**

**DATE :** **06 August 2021**

Based on the agreement during the MANCOM meeting on July 19, 2021, an Ad Referendum shall be facilitated for the approval of the ***Guidance Note on Identifying Geographically Isolated and Disadvantaged Areas (GIDA) in Pantawid Pamilyang Pilipino Program.*** The ad referendum was communicated to Pantawid MANCOM members with extended deadline until August 5, 2021, informing them that failure to submit the ad referendum form within the set deadline would mean concurrence to the proposed guidance note.

With some Divisions providing confirmation and approval thru email, may we hereby request for the **approval** of the attached ***GIDA Guidance Note, GIDA Assessment Tool and Rating Guide.***

Thank you.

*Julieta D. Alegarme*  
**JULIETA D. ALEGARME**

**MEMORANDUM**

**FOR :** **GEMMA B. GABUYA**  
Director IV and National Program Manager  
Pantawid Pamilyang Pilipino Program

**RECOMMENDING APPROVAL :** **ROSALIE D. DAGULO** *MS 8/11/21*  
OIC Deputy Program Manager for Operations

**FROM :** **THE DIVISION CHIEF**  
Modified Conditional Cash Transfer Division

**SUBJECT :** **Request for Approval to the Guidance Note on Identifying Geographically Isolated and Disadvantaged Areas (GIDA) In Pantawid Pamilyang Pilipino Program**

**DATE :** **06 August 2021**

---

Based on the agreement during the MANCOM meeting on July 19, 2021, an Ad Referendum shall be facilitated for the approval of the ***Guidance Note on Identifying Geographically Isolated and Disadvantaged Areas (GIDA) in Pantawid Pamilyang Pilipino Program.*** The ad referendum was communicated to Pantawid MANCOM members with extended deadline until August 5, 2021, informing them that failure to submit the ad referendum form within the set deadline would mean concurrence to the proposed guidance note.

With some Divisions providing confirmation and approval thru email, may we hereby request for the **approval** of the attached ***GIDA Guidance Note, GIDA Assessment Tool and Rating Guide.***

Thank you.

  
**JULIETA D. ALEGARME**

## GUIDANCE NOTE ON IDENTIFYING GEOGRAPHICALLY ISOLATED AND DISADVANTAGED AREAS (GIDA) IN PANTAWID PAMILYANG PILIPINO PROGRAM

### 1. Rationale

Since its inception, Pantawid Pamilyang Pilipino Program has been constantly responding to the most vulnerable sectors of the society especially the Indigenous Peoples (IP). Guided by its Indigenous Peoples Participation Framework (IPPF), the program conducted consultations among IP communities, leading to the development of Modified Conditional Cash Transfer-Indigenous Peoples in Geographically Isolated and Disadvantaged Areas (MCCT-IPs in GIDA), providing a more inclusive and responsive program to the indigenous peoples.

The term “Geographically Isolated and Disadvantaged Areas (GIDA)” was adopted from the DOH, NCIP & DILG Joint Memorandum Circular No. 2013 – 01 where it was defined as *“Far-flung areas and marginalized populations which include islands, mountainous areas, conflict-affected areas (CAAs), internally-displaced persons (IDPs), and ICCs/IPs”*. For the benefit of the program, the definition was modified to refer to the IPs residing in communities with absence of access roads and hard-to-reach areas, absence of or limited opportunity for development, absence of or limited access to social services, and insufficient food security. At present, MCCT IPs in GIDA caters to 169,685 IP families.

With the institutionalization of Pantawid Pamilyang Pilipino Program, ***“those in geographically isolated and disadvantaged areas”*** will be automatically included in the DSWD’s standardized targeting system. Further, findings from the Joint Review Missions with the Development Partners revealed that households in GIDA, regardless of affiliation, are more vulnerable than those not in GIDA. Hence, there is a need to identify geographically isolated and disadvantaged areas accurately to ensure appropriate and individualized interventions within the seven-year program engagement leading to improved well-being.

Given the above-cited premises, along with the program’s direction to integrate the MCCT beneficiary data including IPs in GIDA to Pantawid Pamilya Information System (PPIS), led to the development of this GIDA Guidance Note. This guidance note shall provide the necessary guidance to accurately identify and tag geographically isolated and disadvantaged areas in the Pantawid Pamilya Information System, thereby ensuring appropriate and individualized interventions.

## 2. Legal Bases

### **R.A. 11310: An Act Institutionalizing the Pantawid Pamilyang Pilipino Program**

*Section 6. Eligible Beneficiaries – “Farmers, fisherfolks, homeless families, indigenous peoples, those in the informal settler sector and those in geographically isolated and disadvantaged areas including those in areas without electricity shall be automatically included in the standardized targeting by the household-beneficiary.”*

### **DOH Administrative Order 2020-23: Guidelines on Identifying Geographically-Isolated and Disadvantaged Areas and Strengthening their Health Systems**

Defines the barangay as GIDA based on *“both physical and socio-economic factors that limit the availability of and accessibility to basic health services among the population in that area.”*

Criteria for the classification of GIDA are as follows:

- *Physical factor of a barangay – at least 25% of sitio/purok should neither have an access to a Rural Health Unit (RHU) nor to a hospital within 60 minutes of travel in any form of transport, including walking;*
- *Socio-economic factor of a barangay specifically the provision that “at least 10% of its population are affected by armed conflict or internally displaced..”*

### **MC 19 Series of 2014: Guidelines for the Pilot Implementation of the MCCT Program for Indigenous Peoples in Geographically Isolated and Disadvantaged Areas**

*Area Coverage – “Indigenous peoples in GIDA particularly those with:*

- *No or limited opportunities for development*
- *No or limited access to social services*
- *No access road or hard-to-reach areas*
- *Insufficiency of food security”*

### **DOH-NCIP -DILG Joint Memorandum Circular No. 2013-01 Series of 2013**

*Definition of Terms – Geographically Isolated and Disadvantaged Areas (GIDA)*

*“Far-flung areas and marginalized populations which include islands, mountainous areas, conflict affected areas (CAAs), internally displaced persons (IDP), and ICCs/IPs.”*

### **A.O. 7 Series of 2011: Guidelines in the Preparation of the Social Protection and Development Report (SPDR)**

The SPDR aims to *“identify the risks and vulnerabilities encountered by individuals, families and communities”* in order to prioritize the major risks and vulnerabilities given the limited resources of the government.

Aside from the identification of risk, the SPDR aims to identify the prevalence of risk as well as the identification of vulnerable groups such as IPs, and prevalence of their vulnerability. Further, the SPDR defines risk and vulnerability assessment as *“the measurement or estimation of being at-risk and vulnerable at any potentially harmful event”*.

### **Enhanced Social Protection Framework of the Philippines**

The Enhanced Social Protection Framework of the Philippines aims to improve the quality of life for all Filipinos by (i) reducing poverty, inequality, and vulnerability; and (ii) including the marginalized and raising their social status. The framework seeks to mitigate (i) lifecycle and individual risks; (ii) environmental, natural, and human-induced risks; (iii) economic risks; and (iv) social and governance risks. The framework emphasizes the critical role of the 4Ps in reducing poverty and promoting development. The framework highlights social protection as a basic human right and notes the critical role of local governments in implementing the program.

### **3. Objective**

The GIDA Guidance Note aims to assess and tag identified geographically isolated and disadvantaged areas (GIDA) in Pantawid Pamilya Information System to ensure appropriate and individualized interventions.

Specifically, it aims to:

- Revisit and revalidate existing geographically isolated and disadvantaged areas;
- Identify other GIDAs among Pantawid ;
- Provide guidance and tools for proper identification of geographically isolated and disadvantaged areas; and,
- Specify roles and responsibilities of program staff involved in the assessment.

### **4. Scope and Coverage**

The GIDA Guidance Note shall apply to all Pantawid areas both under MCCT and RCCT. Areas identified as GIDA during the first assessment shall be reassessed every after two (2) years.

The GIDA Assessment shall be administered at the *barangay*-level with its farthest sitio as the point of reference.

### **5. Definition of Terms**

**Armed Conflict** – *refers to a contested incompatibility that concerns government and/or territory where the use of armed force between two parties, of which at least one is the government of a state, results in at least 25 battle-related deaths in one calendar year<sup>1</sup>.*

---

<sup>1</sup> [www.undp.org](http://www.undp.org)

**Calamity** - a disastrous event marked by great loss and lasting distress and suffering<sup>2</sup>

**Food threshold** – refers to minimum income/ expenditure required for a family/ individual to meet the basic food needs which satisfies the nutritional requirements for economically necessary and socially desirable physical activities<sup>3</sup>

**Geographically Isolated and Disadvantaged (GIDA) Barangay** – refers to a “community with marginalized population physically and socio-economically separated from the mainstream society”<sup>4</sup>. GIDA barangays are also those with GIDA sitio or “pockets of households far from the barangay center, and with no discernible roads for motor vehicles to pass”<sup>5</sup>

These GIDA Sitios within GIDA barangays are identified to be located beyond the 500-meter radius from the “discernable center” of the barangay where social service facilities congregate. The farther away the GIDA sitio is from the discernable center, the harder it is for the households to access the social services available in the barangay.

**Hazard** - a situation with the potential to induce “harm, damage to property, damage to the environment, or a combination of these”<sup>6</sup>. Hazards may be natural, or anthropogenic/ human-induced in origin. Natural hazards are predominantly associated with natural processes and phenomena. Anthropogenic hazards, or human-induced hazards, are induced entirely or predominantly by human activities and choices<sup>7</sup>.

**Indigenous Peoples (IP)** - refer to a group of people or homogenous societies identified by self-ascription and ascription by others, who have continuously lived as organized community on communally bounded and defined territory, and who have, under claims of ownership since time immemorial, occupied, possessed and utilized such territories, sharing common bonds of language, customs, traditions and other distinctive cultural traits, or who have, through resistance to political, social and cultural inroads of colonization, non-indigenous religions and cultures, became historically differentiated from the majority of Filipinos.<sup>8</sup>

**Multigrade classes** – classes with multiple grade levels inside a single classroom and handled by the same teacher. These are commonly conducted in far-flung areas where students are smaller in number.

<sup>7</sup> <https://www.undrr.org>

<sup>8</sup> R.A. 8371: Indigenous Peoples Rights Act of 1997

**Risks** – refer to uncertain events that may damage someone's well-being towards becoming poor<sup>9</sup>

**Vulnerabilities** – refer to probabilities to become poor in the future<sup>10</sup>

## 6. GIDA Assessment Implementing Guide

The GIDA Assessment is recommended to be administered at the Barangay level with its farthest sitio as the point of reference. Areas identified as GIDA shall be reassessed every after two (2) years to ensure updated classification. The assessment shall be facilitated by the Community Facilitator/City/Municipal Link either through a barangay assembly or focus group discussions ensuring that all sitio/purok and sectors are well represented especially those belonging to indigenous groups, women, and youth. The assessment shall utilize the **GIDA Assessment Tool (Annex A)** and **GIDA Rating Guide (Annex B)**.

The result of the assessment shall be reviewed and consolidated by the Provincial Link/SWO III and submitted to the Regional Program Management Office (RPMO) for consolidation using the **GIDA Assessment Summary (Annex C)** and submission to the NPMO. The NPMO shall then facilitate the tagging of GIDA and non-GIDA on Pantawid Information Systems based on the submission of field offices. For the detailed institutional arrangement, please refer to section VII of this guidance note.

Result of GIDA assessment shall be utilized for the provision of appropriate interventions thru case management and/or community organizing. The result of the assessment is recommended to be shared with Local Government Units (LGU) and other stakeholders either thru advisory committee meetings or other venues, for the provision of appropriate interventions. Caution should be observed however, against possible alteration or manipulation.

### 6.1. GIDA Assessment Tool and Rating Guide

The GIDA Assessment Tool is divided into two (2) sections: **Geographic Isolation** and **Area Vulnerabilities**. Each section has a set of indicators which are rated based on the GIDA Rating Guide. GIDA Assessment Tool and Rating Guide per indicator are further discussed below.

---

<sup>9</sup> A.O. 7 Series of 2011: Guidelines in the Preparation of the Social Protection and Development Report (SPDR)

<sup>10</sup> Ibid.

## A. GEOGRAPHIC ISOLATION

This section aims to identify the geographic isolation of the barangay by identifying the following:

- A.1. Distance of the Farthest Sitio of the Barangay from the Barangay Hall;
- A.2. Distance of the Farthest Sitio of the Barangay from the Rural Health Unit;
- A.3. Distance of the Farthest Sitio of the Barangay from the Nearest Public Education Facility; and,
- A.4. Distance of the Farthest Sitio of the Barangay from the Nearest Market.

The farthest sitio within a barangay is the point of reference for defining geographic isolation. This is done to account the presence of GIDA sitios within a barangay and to be consistent with DOH guidelines which focus on the access of sitio/purok to the Rural Health Units.

Distance is measured in this section by looking into the primary and secondary modes transportation from the farthest sitio of the barangay. **Primary mode of transportation** is the dominant mode of transportation used by the majority of the population. **Secondary mode of transportation** is the alternative mode of transport when the primary mode of transportation is either not available due to certain weather conditions, or the alternative mode of transportation becomes more convenient in certain season (e.g. use of boat in some areas during monsoon). To rate the geographic isolation, please refer to the rating guide below per indicator found in columns.

In all indicators measuring distances, the tool below shall be used:

**Table 1: Assessment Tool for A.1-A.4**

Mode of Transportation	Distance (in km)	Frequency of Trip	Travel Time	Availability of Transportation	Cost of Transportation (per person, unless the ride requires rental of the whole vehicle)	Road Type/Condition	Average Rating	Remarks
Walk							#DIV/0!	
Motorcycle/Habal-Habal							#DIV/0!	
Horse							#DIV/0!	
Boat							#DIV/0!	
Jeepney							#DIV/0!	
Bus							#DIV/0!	
Van							#DIV/0!	
Bike/Pedicab/Tricycle							#DIV/0!	
Others (specify)							#DIV/0!	
General Rating	#DIV/0!							

**Table 2: Rating Guide for A.1-A.4 (Distance)**

Distance (in km)	
Rating	Description
1	Less than 500 meters
2	500 meters - 1 km
3	More than 1 km to 2 km
4	More than 2 km to 4 km
5	More than 4 km

**Table 3: Rating Guide for A.1-A.4 (Frequency of Trip)**

Frequency of Trip	
Rating	Description
1	Regular trips available anytime of the day
2	Hourly Trips
3	3 or more trips per day
4	1 - 2 trips per day
5	Special Trips only

**Table 4: Rating Guide for A.1-A.4 (Travel Time)**

Travel Time	
Rating	Description
1	Less than an hour
2	1 - 2 hours
3	more than 2 hrs -3 hours
4	more than 3 hrs - 4 hours
5	More than 4 hours

**Table 5: Rating Guide for A.1-A.4 (Availability of Transportation)**

Availability	
Rating	Description
1	Mode of transportation is available regardless of weather conditions
3	Mode of transportation is available in specific weather conditions
5	Mode of transportation is NOT AVAILABLE in most weather conditions

**Table 6: Rating Guide for A.1-A.4 (Cost of Transportation)**

Cost of Transportation	
Rating	Description
1	Less than 50 pesos
2	50 pesos -100 pesos
3	101 pesos - 200 pesos
4	201-300 pesos
5	More than 300 pesos

**Table 7: Rating Guide for A.1-A.4 (Road Type/Condition)**

Road Type/Condition	
Rating	Description
1	Concrete/gravel road
3	Rough road
5	No access road; foot path only or other terrain types

**Table 8: Rating Guide for A.1-A.4 (For areas shaded in gray)**

Rating	Description
1	Walking/boat ride is not the only mode of transportation available but is preferred due to its low cost
3	Walking/boat ride is not the only mode of transportation available but is preferred by the majority of community due to other reasons (e.g. accessibility, safety, etc)
5	Walking/boat ride is the only mode of transportation available in certain period of time

**For areas shaded in gray in the assessment tool, the rating guide above shall be used.**

## **B. AREA VULNERABILITIES**

This section aims to identify the vulnerabilities in the area such as the quality of social services (health and education); accessibility and quality of basic utilities; socio-economic situation (livelihood, prices of products and basic commodities); and lastly, the intensity and effect of natural and human-induced hazards.

Per A.O. 7 Series of 2011: Guidelines in the Preparation of the Social Protection and Development Report (SPDR), vulnerability is the probability of families or households to become poor in the future. Further, SPDR recognizes the vulnerability of special sectors such as the indigenous peoples.

### **B.1. Social Services**

This indicator specifically looks into the quality of health and education services in the most accessible facilities from the farthest sitio of the barangay.

### B.1.1. Quality of Health Services

Specific to health service, the community should identify the **top 3 health facilities most accessible from the farthest sitio of the barangay**. Facility ownership, distance, service capability, and availability of health personnel and facilities shall be rated per health facility based on the following tool and rating guide.

**Table 9: Assessment Tool for B.1.1.**

Health Facility Name	Facility Ownership (Public/Private)	Distance (please refer to the tool for distance found in section A)	Service Capability	Availability of Health Personnel and Facilities	Average Rating	Remarks
General Rating						

**Table 10: Rating Guide for B.1.1. (Facility Ownership)**

Facility Ownership (Public/Private)	
Rating	Description
1	Private
5	Public

**Table 11: Rating Guide for B.1.1. (Service Capability)**

Service Capability	
Rating	Description
1	Level 2 or 3 hospital (5 to 10 clinical specialties with 200-800 beds; or highly specialized hospital and technical equipments, with ICU, and with 300-1500 beds)
2	Level 1 hospital (general practice or few specialties with limited laboratory services)
3	General or Specialty Clinic
4	Rural Health Unit (RHU)
5	BHS or BHS Extension

**Table 12: Rating Guide for B.1.1. (Availability of Health Personnel and Facilities)**

Availability of Health Personnel and Facilities	
Rating	Description
1	The health practitioner and health facilities are always/most of the time available
3	The health practitioner and health facilities are present but mostly not available
5	The health practitioner and health facilities are NOT available/present OR only the BHWs are present

For the distance, **Table 1: Assessment Tool for A.1-A.4** and its corresponding rating guide shall be used.

### B.1.2. Quality of Education Services

This indicator looks into the facility ownership; distance; presence of multigrade classes; availability of teaching staff; and, availability and condition of materials, facilities and equipment per education facility. For this indicator, the community shall identify two (2) facilities per level: Early Childhood Care and Development (ECCD), Kinder and Elementary School, High School, Senior High School, and Alternative Learning System/Alternative Delivery Mode (ALS/ADM) which are most accessible from the farthest sitio of the barangay.

**Table 13: Assessment Tool for B.1.2.**

Education Facility per Level	Facility Name	Facility Ownership (Public/Private)	Distance (please refer to the tool for distance found in	Presence of Multigrade Classes	Availability of Teaching Staff	Materials, Facilities and Equipments	Average Rating	Remarks
ECCD								
Kinder and Elementary School								
High School								
Senior High School								
ALS/ ADM								
General Rating								

**Table 14: Rating Guide for B.1.2. (Facility Ownership)**

Facility Ownership (Public/Private)	
Rating	Description
1	Private
5	Public

For the distance, **Table 1: Assessment Tool for A.1-A.4** and its corresponding rating guide shall be used.

**Table 15: Rating Guide for B.1.2. (Presence of Multigrade Classes)**

Presence of Multigrade Classes	
Rating	Description
1	Classes are conducted with ONE (1) grade level per classroom per teacher/ Not multigrade classes
3	Classes are conducted with TWO (2) grade levels inside a single classroom and handled by the same teacher
5	Classes are conducted with THREE (3) grade levels inside a single classroom and handled by the same teacher

Multigrade classes are those with multiple grade levels inside a single classroom and handled by the same teacher. These are commonly conducted in far-flung areas where students are smaller in number.

**Table 16: Rating Guide for B.1.2. (Availability of Teaching Staff)**

Availability of Teaching Staff	
Rating	Description
1	The teacher incurred 0-1 absence in the past 3 months within a school year
3	The teacher incurred 2-5 absences in the past 3 months within a school year
5	The teacher incurred 6 or more absences in the past 3 months within a school year

**Table 17: Rating Guide for B.1.2. (Materials, Facilities and Equipments)**

Materials, Facilities and Equipments	
Rating	Description
1	Facility is fully constructed and has materials, facilities and equipments sufficient and available for all students
3	Facility is partially constructed and has limited materials, facilities and equipments
5	Facility needs major reconstruction and has limited materials, facilities and equipments

## B.2. Utilities

This indicator looks into the quality, availability and accessibility of potable water, electricity and mobile network coverage in the farthest sitio of the barangay.

**Table 18: Assessment Tool for B.2.**

Utility	Type	Quality	Availability	Distance from the Utility	Average Rating	Remarks
Potable Water						
Electricity						
Mobile Network Signal						
General Rating						

Rating guide for the utilities vary per type of utility. Please refer to the rating guide below for potable water:

**Table 19: Rating Guide for B.2. (Potable Water - Type)**

Type of Water Source	
Rating	Description
1	Piped water supply with a private water point (e.g. house connection)
3	Piped water with a communal water point (e.g. communal water system, spring system)
5	Stand-alone water points (e.g. handpumps, shallow wells, rainwater collectors)

**Table 20: Rating Guide for B.2. (Potable Water - Quality)**

Quality	
Rating	Description
1	Commercial/treated water
3	Unprotected/untreated water with good quality most of the time
5	Unprotected/untreated water with poor quality most of the time

**Table 21: Rating Guide for B.2. (Potable Water - Availability)**

Availability	
Rating	Description
1	Utility is available most of the time regardless of weather conditions
3	Utility is NOT available in certain weather conditions
5	Utility is NOT available most of the time

**Table 22: Rating Guide for B.2. (Potable Water - Distance)**

Distance from the Utility (one-way)	
Rating	Description
1	Utility is readily available within the household
2	Utility is less than 15 minutes away from the center of the Sitio
3	Utility is 15 - 30 minutes away from the center of the Sitio
4	Utility is 30 minutes-1 hour away from the center of the Sitio
5	Utility is more than 1 hour away from the center of the Sitio

Rating guide for **electricity** is as follows:

**Table 23: Rating Guide for B.2. (Electricity – Type)**

Type	
Rating	Description
1	Electricity is provided per household by commercial service providers
3	Electricity is provided per household by communal sources (e.g. community solar panel)
5	No electricity available in the Sitio / stand-alone electric sources (e.g. solar panel, generator in few households)

**Table 24: Rating Guide for B.2. (Electricity – Availability)**

Availability	
Rating	Description
1	Utility is available most of the time regardless of weather conditions
3	Utility is NOT available in certain weather conditions
5	Utility is NOT available most of the time

And for the **mobile network signal** as follows:

**Table 25: Rating Guide for B.2. (Mobile Network Signal – Quality and Availability)**

Quality and Availability	
Rating	Description
1	Signal is available regardless of weather conditions
3	Signal is NOT available in certain weather conditions
5	Signal is NOT available most of the time

**Table 26: Rating Guide for B.2. (Mobile Network Signal – Distance from the Utility)**

Distance from the Utility (one-way)	
Rating	Description
1	Utility is readily available within the household
2	Utility is less than 15 minutes away from the center of the Sitio
3	Utility is 15 - 30 minutes away from the center of the Sitio
4	Utility is 30 minutes-1 hour away from the center of the Sitio
5	Utility is more than 1 hour away from the center of the Sitio

### B.3. Socio-Economic

This indicator looks into the livelihood, prices of farm and other products from the farthest sitio of the barangay, and prices of basic commodities in the farthest sitio.

#### B.3.1. Livelihood

For this indicator, the total population engaged per livelihood and the total net income of this population should be filled-out by the field worker and shall be automatically computed by the tool. Rating based on the computed value is as follows:

**Table 27: Assessment Tool for B.3.1.**

Livelihood	Total Population Engaged in the Livelihood (please indicate)	Total Income per year (please indicate net income)	Total income/ total population		Equipment and Techniques Used	Availability of Materials, Inputs and Implements	Rating	Remarks
			Computation	Rating				
Farming			#DIV/0!					
Livestock			#DIV/0!					
Fishing			#DIV/0!					
Food processing/ Manufacturing/			#DIV/0!					
Wage labor (e.g. household helper,			#DIV/0!					
Others (please specify)			#DIV/0!					
General Rating								

**Table 28: Rating Guide for B.3.1. (Total income/ total population)**

Total income/ total population (Please refer to Annex D for the provincial food threshold)	
Rating	Description
1	Income per person is more than the 2018 provincial food threshold
3	Income per person is equal to the 2018 provincial food threshold
5	Income per person is less than the 2018 provincial food threshold

**Note:** Amount of provincial food threshold can be found in Annex D.

**Table 29: Rating Guide for B.3.1. (Equipment and Techniques Used)**

Equipment and Techniques Used	
Rating	Description
1	More than half of the population uses machinery and advanced techniques
3	More than half of the population either use machinery or advanced techniques
5	More than half of the population uses mechanical tools and old techniques

**Table 30: Rating Guide for B.3.1. (Availability of Materials, Inputs and Implements)**

Availability of Materials, Inputs and Implements	
Rating	Description
1	There is more than enough supply of materials, inputs and implements
3	There is enough supply of materials, inputs and implements
5	There NOT enough supply of materials, inputs and implements

### B.3.2. Prices of Farm and other Products from the Farthest sitio of the Barangay

This indicator looks into the prices of farm and other products from the farthest sitio of the barangay as compared to its prices in the municipal market. Top 5 farm and other products from the farthest sitio, its average price when sold in the barangay proper, and its average price in the municipal market should be filled-out by the field worker. Percentage of increase shall then be automatically computed by the tool with rating as follows:

**Table 31: Assessment Tool for B.3.2.**

Produce	Average Price in the Barangay Proper (please indicate amount)	Average Price in the Municipal Market (please indicate amount)	Increase (%)	Rating	Remarks
			#DIV/0!		
			#DIV/0!		
			#DIV/0!		
			#DIV/0!		
			#DIV/0!		
General Rating					

**Table 32: Rating Guide for B.3.2.**

Prices of Farm and other Products from the farthest sitio of the Barangay	
Rating	Description
1	Market price is less than 100% increase from the original price
3	Market price is 100-200% increase from the original price
5	Market price is more than 200% increase from the original price

### B.3.3. Prices of basic commodities in the Farthest sitio of the Barangay

This indicator looks into the average price of pre-identified basic commodities (rice, instant noodles, sardines, powdered milk, detergent bar, bath soap) in the farthest sitio as compared to its average price in the municipal market. Average prices when bought in the farthest sitio and its average prices in the municipal market should be filled-out by the field worker. Percentage of increase shall then be automatically computed by the tool and shall be rated based on the rating guide below.

**Table 33: Assessment Tool for B.3.3.**

Commodity	Average Price in the farthest sitio (please indicate amount)	Average Price in the Municipal Market (please indicate amount)	Increase (%)	Rating	Remarks
Rice (1 kg)			#DIV/0!		
Instant Noodles (55 g)			#DIV/0!		
Sardines (155 g)			#DIV/0!		
Powdered milk (33 g)			#DIV/0!		
Detergent bar (1 cut from 360 g bar)			#DIV/0!		
Bath Soap (42 g)			#DIV/0!		
<b>General Rating</b>					

**Table 34: Rating Guide for B.3.3.**

Prices of basic commodities within the Barangay	
Rating	Description
<b>1</b>	Price in the barangay is less than 25% increase from the market price
<b>3</b>	Price in the barangay is 25-50% increase from the market price
<b>5</b>	Price in the barangay is more than 50% increase from the market price

#### **B.4. Natural and Human-Induced Hazards**

The last indicator looks into the vulnerability of the area brought by natural and human-induced hazards such as armed conflict, earthquake, landslide and drought. Frequency of the hazard/calamity in the past two (2) years, its intensity, and number of households affected shall be rated based on the rating guide below.

**Table 35: Assessment Tool for B.4.**

Hazard	Frequency in the past two (2) years	Intensity	Number of Households Affected	Rating	Remarks
Armed Conflict					
Earthquake					
Landslide					
Drought					
<b>General Rating</b>					

Rating for the Frequency is uniform for all types of hazards.

**Table 36: Rating Guide for B.4 (Frequency in the Past 2 years)**

Frequency in the past 2 years	
Rating	Description
<b>1</b>	No incidence was recorded in the farthest sitio of the barangay and its vicinity in the past 2 years
<b>3</b>	1-2 incidences were recorded in the farthest sitio of the barangay and its vicinity in the past 2 years
<b>5</b>	More than 2 incidences were recorded in the farthest sitio of the barangay and its vicinity in the past 2 years

For the intensity, the ratings vary depending on the hazard. For armed conflict, rating for intensity is as follows:

**Table 37: Rating Guide for B.4 (Armed Conflict - Intensity)**

Intensity	
Rating	Description
1	No crossfire was heard from the farthest sitio of the barangay
2	Crossfire from armed conflict was heard but did not affect the normal functions of the farthest sitio
3	Crossfire from armed conflict was heard and affected some functions of the farthest sitio
4	Crossfire from armed conflict caused displacement of families from the farthest sitio
5	Crossfire from armed conflict caused fatalities and displacement of families from the farthest sitio

Rating guide for the intensity of **earthquake** shall follow the PHIVOLCS Earthquake Intensity Scale (PEIS) which is clustered as follows:

**Table 38: Rating Guide for B.4 (Earthquake - Intensity)**

Intensity (Please refer to PHIVOLCS Earthquake Intensity Scale)	
Rating	Description
1	No earthquake was felt in the farthest sitio of the barangay
2	Intensity I-III: From scarcely perceptible to weak vibrations
3	Intensity IV-VI: Moderately strong to very strong vibrations
4	Intensity VII-VIII: Destructive to very destructive
5	Intensity IX-X: Devastating to completely devastating

Rating guide for the intensity of **landslide** and **drought** are the same which is as follows:

**Table 39: Rating Guide for B.4 (Landslide/Drought- Intensity)**

Intensity	
Rating	Description
1	The hazard hardly affected the farthest sitio of the barangay
3	The hazard/calamity affected the normal functions of the farthest sitio
5	The hazard/calamity led to death and affected the normal functions of the farthest sitio

For the **Number of Households Affected**, rating guide is the same for all hazards which is as follows:

**Table 40: Rating Guide for B.4 (Number of Households Affected)**

Number of Households Affected	
Rating	Description
1	The hazard did not cause displacement of households from the farthest sitio of the barangay
3	The hazard/disaster caused displacement of 1-5 households from the farthest sitio of the barangay
5	The hazard/disaster caused displacement of more than 5 households from the farthest sitio of the barangay

### B.5. Indigenous Peoples Groups

Per A.O. 7 Series of 2011: Guidelines in the Preparation of the Social Protection and Development Report (SPDR), presence of vulnerable group specifically IPs, their indigenous political structure and use of indigenous language are identified in this assessment tool as follows:

**Table 41: Assessment Tool for B.5.**

Indigenous Peoples Group	Number of IP families (please specify)	Total Number of Families (please specify)	IP families/ Total number of families		Indigenous Language	Indigenous Political Structure	Rating	Remarks
			% of IPs	Rating				
General Rating								

**Table 42: Rating Guide for B.5 (IP families/ Total number of families)**

IP families/ Total number of families	
Rating	Description
1	There are no IP families in the farthest sitio
2	IP families in the farthest sitio is less than 10% from the total number of families
3	IP families in the farthest sitio is 10-20% from the total number of families
4	IP families in the farthest sitio is more than 20% from the total number of families
5	All residents in the farthest sitio are IPs

**Table 43: Rating Guide for B.5 (Indigenous Language)**

Indigenous Language	
Rating	Description
1	There are no IP families / The indigenous peoples are not aware or are not using their indigenous language at all
3	The IPs are slightly familiar and rarely use their indigenous language
5	Majority of the IPs are aware and is still using their indigenous language in everyday conversations

**Table 44: Rating Guide for B.5 (Indigenous Political Structure (IPS))**

Indigenous Political Structure (IPS)	
Rating	Description
1	There is no Indigenous Political Structure present in the area
3	The Indigenous Political Structure is present but is not active and/or functional
5	The Indigenous Political Structure is active and functional

### 6.2. GIDA Assessment Rating

The Regional IP Focal Person shall be responsible in getting the general and overall ratings based on the submitted assessment forms from the provincial operations office. All ratings shall be computed based on their average score hence will always be between 1-5.

For example, if the primary transportation of the farthest sitio is six (6) hours walk in more than 4 km foot path, two (2) hours *habal-habal* in 4 km rough road, and thirty (30) minutes jeepney ride in 2 km concrete road from the market for one-way travel, the rating will be as follows:

**Table 45: Sample Assessment Tool and Rating**

Mode of Transportation	Distance (in km)	Frequency of Trip	Travel Time	Availability of Transportation	Cost of Transportation (per person, unless the ride requires rental of the whole vehicle)	Road Type/ Condition	Average Rating
Walk	5	5	5	5	5	5	5
Motorcycle/Habal-Habal	4	5	2	5	3	3	3.666667
Horse							
Boat							
Jeepney	3	2	1	1	1	1	1.5
Bus							
Van							
Bike/Pedicab/Tricycle							
Others (specify)							
General Rating	3.388888889						

This, along with other components under the geographic isolation shall be consolidated in order to compute for the **Geographic Isolation Score** found at the end of Section A:

**Table 46: Geographic Isolation Score**

COMPONENT		GENERAL RATING
<b>A.1. Distance of the Farthest Sitio of the Barangay from the Barangay Hall (one-way)</b>	A.1.1. Primary Mode of Transportation from the Farthest Sitio of the Barangay to the Barangay Hall (one-way)	
	A.1.2. Secondary/Alternative Mode of Transportation from the Farthest Sitio of the Barangay to the Barangay Hall (one-way)	
<b>A.2. Distance of the Farthest Sitio of the Barangay from the Rural Health Unit (one-way)</b>	A.2.1. Primary Mode of Transportation from the Farthest Sitio of the Barangay to the nearest Rural Health Unit (one-way)	
	A.2.2. Secondary/Alternative Mode of Transportation from the Farthest Sitio of the Barangay to the nearest Rural Health Unit (one-way)	
<b>A.3. Distance of the Farthest Sitio of the Barangay from the Nearest Public Education Facility (one-way)</b>	A.3.1. Primary Mode of Transportation from the Farthest Sitio of the Barangay to the nearest Public ELEMENTARY School (one-way)	
	A.3.2. Secondary/Alternative Mode of Transportation from the Farthest Sitio of the Barangay to the nearest Public ELEMENTARY School (one-way)	
	A.3.3. Primary Mode of Transportation from the Farthest Sitio of the Barangay to the nearest Public JUNIOR HIGH SCHOOL (one-way)	
	A.3.4. Secondary/Alternative Mode of Transportation from the Farthest Sitio of the Barangay to the nearest Public JUNIOR HIGH SCHOOL (one-way)	
	A.3.5. Primary Mode of Transportation from the Farthest Sitio of the Barangay to the nearest Public SENIOR HIGH SCHOOL (one-way)	
	A.3.6. Secondary/Alternative Mode of Transportation from the Farthest Sitio of the Barangay to the nearest Public SENIOR HIGH SCHOOL (one-way)	
<b>A.4. Distance of the Farthest Sitio of the Barangay from the Nearest Market (one-way)</b>	A.4.1. Primary Mode of Transportation from the Farthest Sitio of the Barangay to the nearest Market (one-way)	
	A.4.2. Secondary/Alternative Mode of Transportation from the Farthest Sitio of the Barangay to the nearest Market (one-way)	
<b>GEOGRAPHIC ISOLATION SCORE</b>		

Similarly, general rating of components under the Area Vulnerability shall be consolidated and computed to get the **Area Vulnerability Score** found at the end of Section B:

**Table 47: Area Vulnerability Score**

COMPONENT		GENERAL RATING
B.1. Social Services	B.1.1. Quality of Health Services	
	B.1.2. Quality of Education Services	
B.2. Basic Utilities		
B.3. Socio-Economic	B.3.1. Livelihood	
	B.3.2. Prices of Farm and other Products from the farthest sitio of the	
	B.3.3. Prices of basic commodities in the Farthest sitio of the Barangay	
B.4. Natural and Man-made Hazards		
AREA VULNERABILITY SCORE		

Geographic Isolation and Area Vulnerability Scores per barangay shall then be consolidated using the Geographically Isolated and Disadvantaged Area Assessment Summary (**Annex C**) and its average shall serve as the overall GIDA Rating of the barangay:

**Table 48: Geographically Isolated and Disadvantaged Area Assessment Summary**

[illegible]

**Table 49: Overall GIDA Rating Guide**

Overall GIDA Rating	
1.00 - 3.25	Non-GIDA
3.26 - 5.00	GIDA

**Overall GIDA rating** shall then be interpreted using the GIDA Rating Guide found above.

Barangays with overall GIDA Rating falling between 1.00 - 3.25 shall be considered as non-GIDA whereas barangays with overall GIDA Rating falling between 3.26 - 5.00 shall be considered as GIDA. Components with individual rating falling between 3.26 - 5.00 are recommended to be coordinated to proper agencies for the appropriate intervention.

## **7. Institutional Arrangement**

### **A. National Program Management Office**

- Provide technical assistance to regional program staff on the use of GIDA assessment tool and rating guide
- Facilitate tagging of GIDA and non-GIDA on Pantawid Information Systems upon review of the submitted assessment forms and summary
- Ensure conduct and monitoring of GIDA assessment
- Develop, manage and install a database system for tagging identified GIDAs with the assistance of Information and Communications Technology Management Service (ICTMS)
- Provide analysis and identification of recommendations/ next steps based on the result of the assessment
- Lead the provision of appropriate interventions thru case management or community organizing for areas identified as GIDA, and facilitate support referrals as necessary

### **B. Regional Program Management Office**

- Ensure conduct of GIDA assessment in all Pantawid areas of the region
- Consolidate, review and prepare the Regional GIDA Assessment Summary for submission to the NPMO
- Provide technical assistance to POOs on the use of GIDA assessment tool and rating guide, and provide guidance to POOs on how to undertake the assessment in consideration with the actual situation of the region
- Provide technical assistance to ensure gender and culture sensitive facilitation of GIDA assessment
- Ensure provision of appropriate interventions to identified GIDAs based on the result of the assessment

### **C. Provincial Operations Office (POO)**

- Ensure conduct of GIDA assessment in all municipalities covered by the program
- Provide technical assistance to field implementers on the use of GIDA assessment tool and rating guide, and provide guidance to MOOs on how to undertake the assessment in consideration with the actual situation in the province
- Provide technical assistance to ensure gender and culture sensitive facilitation of GIDA assessment

- Conduct random check/validation prior to submission to the RPMO to ensure that the assessment was facilitated accordingly
- Consolidate, review and prepare the GIDA assessment summary per province for submission to the RPMO
- Provide appropriate interventions to identified GIDAs based on the result of the assessment

**D. Municipal Operations Office (MOO)**

- Administer the GIDA assessment using the GIDA assessment tool and GIDA rating guide in all barangays covered by the program
- Accomplish the GIDA assessment tool and submit to the POO for their consolidation and review
- Ensure gender and culture sensitive facilitation of GIDA assessment employing community organizing and case management as strategy
- Provide appropriate interventions to identified GIDAs based on the result of the assessment

**8. Effectivity**

This GIDA Guidance Note and its attached tools shall take effect immediately.

**GEMMA B. GABUYA**

Director IV and National Program Manager

A. GEOGRAPHICAL ISOLATION

A.1. Distance of the Farthest Sitio of the Barangay from the Barangay Hall (one-way)

A.1.1. Primary Mode of Transportation from the Farthest Sitio of the Barangay to the Barangay Hall (one-way)  
(Please fill-out the primary mode of transportation used by the community)

Mode of Transportation	Distance (in km)	Frequency of Trip	Travel Time	Availability of Transportation	Cost of Transportation (per person, unless the ride requires rental of the whole vehicle)	Road Type/Condition	Average Rating	Remarks
Walk							#DIV/0!	
Motorcycle/Habal-Habal							#DIV/0!	
Horse							#DIV/0!	
Boat							#DIV/0!	
Jeepney							#DIV/0!	
Bus							#DIV/0!	
Van							#DIV/0!	
Bike/Pedicab/Tricycle							#DIV/0!	
Others (specify)							#DIV/0!	
General Rating				#DIV/0!			#DIV/0!	

A.1.2. Secondary/Alternative Mode of Transportation from the Farthest Sitio of the Barangay to the Barangay Hall (one-way)  
(Please fill out the secondary/ALTERNATIVE transportation used by the community, if any)

Mode of Transportation	Distance (in km)	Frequency of Trip	Travel Time	Availability of Transportation	Cost of Transportation (per person, unless the ride requires rental of the whole vehicle)	Road Type/Condition	Average Rating	Remarks
Walk							#DIV/0!	
Motorcycle/Habal-Habal							#DIV/0!	
Horse							#DIV/0!	
Boat							#DIV/0!	
Jeepney							#DIV/0!	
Bus							#DIV/0!	
Van							#DIV/0!	
Bike/Pedicab/Tricycle							#DIV/0!	
Others (specify)							#DIV/0!	
General Rating				#DIV/0!			#DIV/0!	

A.2. Distance of the Farthest Sitio of the Barangay from the Rural Health Unit (one-way)

A.2.1. Primary Mode of Transportation from the Farthest Sitio of the Barangay to the nearest Rural Health Unit (one-way)  
(Please fill out the primary mode of transportation used by the community)

Mode of Transportation	Distance (in km)	Frequency of Trip	Travel Time	Availability of Transportation	Cost of Transportation (per person, unless the ride requires rental of the whole vehicle)	Road Type/Condition	Average Rating	Remarks
Walk							#DIV/0!	
Motorcycle/Habal-Habal							#DIV/0!	
Horse							#DIV/0!	
Boat							#DIV/0!	
Jeepney							#DIV/0!	
Bus							#DIV/0!	
Van							#DIV/0!	
Bike/Pedicab/Tricycle							#DIV/0!	
Others (specify)							#DIV/0!	
General Rating				#DIV/0!			#DIV/0!	

A.2.2. Secondary/Alternative Mode of Transportation from the Farthest Sitio of the Barangay to the nearest Rural Health Unit (one-way)  
(Please fill out the secondary/ALTERNATIVE transportation used by the community, if any)

Mode of Transportation	Distance (in km)	Frequency of Trip	Travel Time	Availability of Transportation	Cost of Transportation (per person, unless the ride requires rental of the whole vehicle)	Road Type/Condition	Average Rating	Remarks
Walk							#DIV/0!	
Motorcycle/Habal-Habal							#DIV/0!	
Horse							#DIV/0!	
Boat							#DIV/0!	
Jeepney							#DIV/0!	
Bus							#DIV/0!	
Van							#DIV/0!	
Bike/Pedicab/Tricycle							#DIV/0!	
Others (specify)							#DIV/0!	
General Rating				#DIV/0!				

A.3. Distance of the Farthest Sitio of the Barangay from the Nearest Public Education Facility (one-way)

A.3.1. Primary Mode of Transportation from the Farthest Sitio of the Barangay to the nearest Public ELEMENTARY School (one-way)  
(Please fill-out the primary mode of transportation used by the community)

Mode of Transportation	Distance (in km)	Frequency of Trip	Travel Time	Availability of Transportation	Cost of Transportation (per person, unless the ride requires rental of the whole vehicle)	Road Type/Condition	Average Rating	Remarks
Walk							#DIV/0!
